DETAILED ACTION

1. This application has been examined. This action is in response to an election requirement filed February 15, 2006. Claims 1-6 are pending. An action on the merits of claims 1 and 5 is included in this office action. Nonelected claims 2-4 and 6 are withdrawn from consideration. Applicant's election is not clearly understood since it is unclear if a species has been elected. Claim 5 appears to be most directly related to the recitation of claim 1.

Claim Rejections - 35 USC § 112

2. Claims 1 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims fail to distinctly claim an apparatus including a plurality of sources of water including public water and "well water"(used as a source for gray water). For example; "...particularly specifically those that bare totally dependent upon a public water supply entry or a METROPOLITAN Water District,---....", "...to make sure that the drinking water does not mistakenly get into the toilet...' and Municipal/City/National Law.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Wiseman et al (Figure 1). In particular note fresh water (public) flows into line 32 and well water (gray

water source) flows into line 76 and tank 14. see column 5, lines 43+. Toilets, etc, are disclosed as using the gray water. A plurality of header pipes (tee connectors, etc.) are shown.
